

I usually don't ask my friends to help me but this is real important to me. On Craig's list in every city there are hundreds of ads from backyard dog breeders with puppies for sale. These people just want to make a fast \$ and don't care that for every puppy they sell one gets killed at the shelter. It has gotten out of hand and with the economy the way it is hundreds of people have to give up their dogs. These dogs will die at a shelter because of all the breeders dogs going there too. Below is some info about a group I started. PLEASE help and/or pass this on so others can help. Please stop these breeders by making their dogs harder to sell and maybe they will get them fixed.

**From: The Florida watch group:**

I can't believe the hundreds of ads on **Craig's list** selling puppies. It has become a part time job for some people. 10 puppies @ \$75 = \$750 X 2 a year = \$1,500.00. 12 Lb Chi's, part Lab and part Pit. It just isn't right. I just saw a picture of our local shelter with 12 dogs in bags that were put down today. That's only 1 shelter. Just think of how many dogs are being put down everyday just in Florida! It's so sad.

If you really want to help the dogs just **flag ALL posts** selling or giving away puppies from backyard breeders and pro-breeders. It doesn't matter the situation because for every "puppy" sold on CL one dies at the kennel or shelter.

These backyard breeders and people who refuse to spay or neuter their dogs need to know that they can't sell them on CL and make a profit or just dump them. Please check out **ALL** Florida cities or cities in your state in the pet section and **flag all puppy (puppies) ads** except for the shelter or rescue ads. That's the only way we will stop this madness. If they have a hard time selling/dumping them, then maybe they will stop breeding their dogs and get them fixed.

After you view the pet section go to the main page and type in "puppies" you will see most breeders now post in the sports, general and farm sections. In Florida Tampa, Jacksonville and S. Florida are the worst for this. ***Please remember not to flag rescue or shelter ads because they are on our side.***

I hope you are with me. And if you are pass this along to others and maybe save some future dogs. Please put Florida watch or your state watch on any posts you make so we know this is working.

A dog rescuer/foster,  
Florida Watch Group.

If you don't agree please watch this video:
